## How Does SellFree Work?

*So you are selling your existing home and buying a new home. What are you thinking? How much should I sell my home for? How much will I net? What's the process?*

*Right, those are some of the big questions going through your mind. You get a little stressed when you think about all the commission you will have to pay in order to sell your home.*

*You look at the numbers, say your home is worth about \$500,000 and the listing agent will want 3%--that will be \$15,000 and the buyer's agent will also want 3%--that will be another \$15,000. You say to yourself, "Wow that is a lot of money" and now you are thinking there has to be a better way.*

*Well now there is, you can get a SellFree from CityWorth. What's a SellFree, you say? Our SellFree program allows you to buy a house with us and we will sell your existing home for free. That's right. Sell your home for free!*

*We will zero out the commission for us on the listing side so you only pay the buyer's agent's commission. That's thousands of dollars in savings. Thousands that could be used for furniture for your new home, a new deck or other new renovations, or maybe money for your kids college fund.*

*Now you say to yourself, "I have less stress and more money and I can't wait for my SellFree from CityWorth."*
