Keep in Touch for **Higher Sales!**

Customers can be pretty demanding. They expect you to show up in their inbox not just before a sale but also during and after.

And who has the time to focus on growing their store AND writing endless emails?

But ignoring your email list means you **lose out on the revenue** you can get from email marketing and **run the risk of losing business** to a competitor... Having worked so hard to grow your email list, it would be a **tragedy** to let those leads grow cold and those customers grow old.

Real talk: writing emails can be overwhelming and frustrating!

- Writing the kinds of emails that result in conversions **steals time** from other important tasks.
- Finding out what information to include in these emails is an **arduous and confusing** process.
- Coming up with the right words takes an **excruciatingly long time** if you're not a natural writer.
- Hiring a professional copywriter involves **exorbitant fees**, overcomplicated briefing processes, and **drawn-out deadlines**.
- When it's already an **exhausting** week, emails can **overcomplicate** things even more.

Here are the biggest lies you're told about email marketing:

✘ You need technical experience and know-how.

- ✘ It costs an arm and a leg.
- ✘ You need to be a great writer.
- ✘ It doesn't result in enough sales to be worth it.

The truth?

In order for email automation to be effective, you need **multiple different flows** based on how your store operates, what products you sell, and who you're targeting.

But it **CAN** be done!

You can set up your email marketing to generate **over 30% of your overall store revenue** yourself - no hassle necessary!

Introducing the **DIY eCommerce Email Success Package**

Because we know that you would rather focus on keeping your store's virtual doors open, we've done all the hard work for you. Our eCommerce Email Success Package makes it a breeze to get a **profit-generating automated email series** up and running for your store.

It includes:

- ➔ 20 Email templates written by professional copywriters that can be easily customized to your store.
- ➔ 6 Email automations based on the different buyer's journey stages of an eCommerce customer.
- ➔ DIY scheduling recommendations for the best times to send different emails.
- ➔ Best practices to maximize the effectiveness of your email campaigns.

This package gives you access to **EVERYTHING** you need to **grow your eCommerce store** and **boost your revenue**, including:

- ➔ **Lead nurture emails** - It often takes up to seven interactions or more to convince prospects to buy. These emails contain "linguistic persuasion" - specific power words that evoke an emotional reaction and persuade them to act sooner rather than later.
- ➔ **Cart and browser abandonment emails** - Don't let interested prospects leave without checking out. Make the most out of every site visitor and ensure that no cart gets left behind with emails that entice prospects to come back and buy from you.
- ➔ **Post-purchase emails** - Including welcome emails, thank you emails, and review request emails, among others, this automation catches prospects when they're at peak interest and shares strategic information that helps convert them into customers.
- ➔ **Win-back emails** - Studies show that 80% of your future revenue comes from 20% of your current customers. These emails save the time and expense involved with acquiring new customers by bringing back old ones who haven't bought from you in a while and getting them to make a new purchase.
- ➔ **VIP customer emails** - Reward and thank your VIP customers to build a better relationship with them, hear their feedback, and increase the chances they'll buy even more from you.

Maximize your profits with this no-brainer offer!

Based on **proven eCommerce marketing tactics** that were developed by our experienced strategists, this email package is designed to improve the **THREE SECRET METRICS** that most eCommerce store owners fail to address:

- ➔ Reduce average Cost Per Acquisition (CPA) - how much it costs to acquire a new customer.
- ➔ Increase average order value - how much a customer spends with each purchase.
- ➔ Boost customer lifetime value - how much one customer is worth over their entire journey with your store.

This is what the right emails could mean for your store:

- ✓ An average return of \$42 for every \$1 you spend on email marketing.
- ✓ A return of \$12 per abandoned cart automation with 69% more orders than a single abandoned cart email would achieve.
- ✓ Open rate boost from the average of 21% to 82% with post-purchase emails.
- ✓ Drive 30% of your store's revenue behind the scenes while you focus on other tasks.
- ✓ Increase customer retention and keep the leads you have.
- ✓ Break down customer objections and see more sales from hesitant customers.
- ✓ Convince active buyers to become hyperactive buyers and spend even more.
- ✓ Keep prospects interested in your product without falling behind in other areas of your business.
- ✓ Remove the time and expense usually associated with email marketing.
- ✓ Maximize profits from your ad spend.
- ✓ Reduce paid advertising and benefit from the "free" marketing provided by emails.

Start seeing actual sales from your emails!

The minds behind the **method**

E-commerce Medics is a different kind of marketing agency.

With over 30 years of combined experience, we're specialists in eCommerce marketing. We have worked with countless eCommerce business owners to help them increase sales, decrease marketing spend, and grow their stores.

Having tried and tested the most effective strategies, we know what works, what doesn't, and how to course-correct based on what the data tells us. Our marketing strategists only use proven methods like optimized funnels, paid advertising, and email automation.

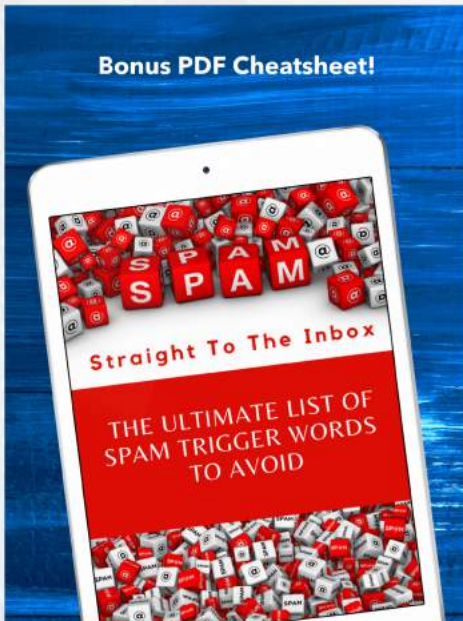

Here are some of the results we've helped our clients achieve:

- Scaled a women's fashion brand from zero Facebook revenue to over \$745k in less than nine months with only \$62k in ad spend.
- Reduced a crafting store's CPA from \$15 (which they were happy with) down to only \$5.24 within two months.
- Scaled a rodeo apparel brand from \$7k a month in Facebook revenue with ROAS of 1.7X up to \$40k a month revenue with 3.4X ROAS in three months.
- Scaled a doll company from 1.8X ROAS up to 3.2X ROAS within three months while also increasing AOV by \$8.

Leverage the experience of our strategists with these DIY email campaigns!

Don't Guess, Just Grow

Trouble with tech? We've done it before. Copy that doesn't convert? We'll help you optimize it. Emails not triggering on time? We're experts at troubleshooting.

You've come this far; you clearly understand the importance of having a fully automated email marketing system. It costs nothing once set up but is like having Santa's little sales helper working for you 24/7.

But setting this up and fine-tuning it yourself can be costly - in more ways than one! Think endless hours figuring out your Customer Relationship Management (CRM) system while a to-do list piles up in the background. Then paying for a professional anyway because your emails ended up in spam...

An hour-long 1:1 strategy call with our marketing specialist helps you take the guesswork out of growing your store. **Use it immediately after purchase or even six months down the line when you run into a problem.** This call is the perfect get-out-of-jail-free card to have in your back pocket for the right time!

Don't Guess, Just Grow

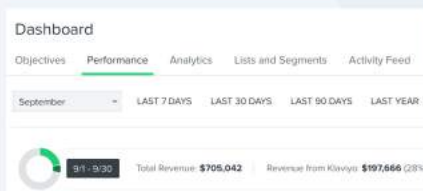

Let's get everything working in tip-top shape to keep your list active, engaged, and virtually begging to buy from you!
