### FROM FETAL POSITION TO FULL LIFE

Having been diagnosed with Biliary colic, the founder of Middle World Herbs wanted to avoid having surgery at all costs. After endless doctor visits, medical tests, and failed treatments, she sought more alternative ways to manage her gallbladder and liver challenges.

She went on a long journey of trial and error until she discovered ancient remedies that have been used for centuries as an effective way to manage gastrointestinal issues.

These ancient remedies helped her restore her digestive health.

## MY PATH LEAD THROUGH ENDLESS AISLES OF SUPPLEMENT STORES...

...And through the maze of formulas with ingredients of questionable origin and purity.

So many 'trial and error' experiments on myself! Did you know that at one point I was taking 5 pills in a morning before the meal, then drinking rather disgusting tea after breakfast followed by in-between meal drops and next set of supplements with lunch?

In fact, Middle World Herbs Digestive Supplements I am putting in your hands were born from months and months of biohacking experiments I ran on myself.

If you are on the same journey, tired with so many ineffective supplements, confused about what works and what doesn't, then you need to hear my story.

There is over a million prescriptions written by medical doctors for pharmaceutical drugs for digestive problems.

I want to share with you the discovery that helped me tip the odds for restoring my digestive health and ultimately turn the downward spiral of worsening pain and aggravating digestive issues into a complete rebound of my health and vitality! [Click Play to listen to my story.](#)

You don't deserve to lose days of your life to **bloating, gas, acid reflux, heartburn, constipation, or diarrhea.**

Where Western medicines temporarily relieve the symptoms of gastrointestinal issues, they **fail to address the underlying cause** and carry the risk of

These problems then reach a point where they develop into more serious or chronic conditions like chronic diarrhea or constipation, gastroenteritis, biliary colic, irritable bowel syndrome, or Crohn's disease. They are assisted by **chronic fatigue, depression, slow metabolism, and inability to lose**

side effects. Often, this means your digestive issue keeps progressing in the background... weight.

But here's the thing:

You don't need to bounce between different types of treatment to find the right approach because we already have access to another kind of treatment.

**A PRIMAL, NATURAL REMEDY...**

Primal Digestive Enzymes are at the core of the Middle World Herbs Digestive Health Program. These enzymes help **break down food into nutrients** and aid the processing of hard to digest foods. Doing so provides **relief for gastrointestinal issues** like bloating, gas, acid reflux, heartburn, constipation, and diarrhea.

Containing the trademarked Makzyme-Pro™ enzyme blend, Primal Digestive Enzymes has been **specifically formulated for those who consistently experience indigestion** or irregularities that cause discomfort and other health problems.

They are **fortified with scientifically effective probiotics to maximize digestive function**. This combination of enzymes and probiotics covers all aspects of your diet to **ease the load on your digestive system**.

**GET MY ENZYMES PROGRAM**

**HOLISTIC TREATMENT FOR LONG-TERM RESULTS**

With Primal Digestive Enzymes you may **experience relief within hours** and the movement of food through your body will be smoother, making heavy meals seem to agree with your stomach better than before and leaving you **feeling less heavy and tired**.

While digestive enzymes can help your body break down hard to digest foods, you can experience **an amazing transformation** when you **amplify the effects of Primal Digestive Enzymes**. Don't waste the extra energy and temporary relief it gave you! Think of Primal Digestive Enzymes as a gentle welcome to the new you and encouraging push to get your life back on track.

You can **restore your digestive health** instead of just temporarily relieving symptoms by establishing **life-long healthy eating habits** and **cultivating a healthy lifestyle** free of digestive discomforts.

This is why we provide you with **all the tools and resources you need** in our **Total Digestive Health Program**, from temporary relief to resources on how to create new nutritional and lifestyle habits. Remember - it's little use to dig a well after the house has caught fire. We are here to help you dig a well today.

**WHAT ARE PRIMAL DIGESTIVE ENZYMES MADE OF?**

Highly active substances called enzymes **play an amazing role in digestion**. Enzymes are produced by the body to help completely break down food for proper absorption and are critical to all life processes. Without enzymes, life could not exist.

Unfortunately, the body's ability to produce enzymes **declines with age, poor food choices, and a sedentary lifestyle**. The more cooked food we consume, the sooner the body's capacity to make enzymes deteriorates.

In addition, the body's ability to produce enzymes can **diminish dramatically with stress, illness, and exposure to toxic chemicals**. With good digestion, the body can destroy harmful organisms, reduce blood cholesterol, reduce blood glucose levels, and improve mineral absorption. However, in poor digestion, incompletely digested food particles can lead to chronic illness, constipation, joint pain, diarrhea, allergies, fatigue, mood swings, rashes, and irritable bowel syndrome.

Our Primal Digestive Enzymes contain a unique and powerful combination of enzymes that assist the digestion of different foods:

## PROTEINS

The following enzymes assist in breaking down hard to digest proteins:

### PROTEASE

Your first dose of protease comes from your mother's breastmilk and, even though it's one of the most primal enzymes, science has not shown interest in protease until recent cutting-edge biological research. These are enzymes that **aid the breakdown of proteins** in the body and **regulate metabolic function**. They are necessary for muscle recovery and the proper functioning of the digestive and immune systems, kidneys, liver, spleen, pancreas, and bloodstream.

### BROMELAIN

Bromelain is a group of enzymes found in the fruit and stem of the pineapple plant. Historically, natives of Central and South America used pineapple for a variety of ailments, such as digestive disorders. Besides its use for digestive problems, it also reduces pain and swelling and is also being **used to treat osteoarthritis, cancer, and muscle soreness**.

### PAPAIN

This proteolytic enzyme is derived from the milky substance that leaks from the peel of the papaya. It breaks down the large peptides found in protein-rich foods into smaller amino acid building blocks. It is a **fantastic digestive aid** and is also **used in cancer prevention treatment** for its ability to potentially dissolve cancerous cells' protective coating.

## FATS

The enzyme formulation also includes lipase, an enzyme which helps to break down hard to digest fats:

### LIPASE

Lipase is an enzyme that improves the use of bile and splits fats to be absorbed by the intestines. As such, it is **crucial for proper fat digestion** and is an **excellent natural gallbladder remedy**. These enzymes can improve IBS, cystic fibrosis, Celiac Disease, and maintain healthy cholesterol levels and cardiovascular health. It boosts nutrient absorption and supports weight loss.

## CARBS AND SUGARS

The processing of hard to digest carbs and sugars is also assisted by an enzyme known as alpha galactosidase:

### ALPHA GALACTOSIDASE

Many organs in your body need to secrete mucus to function properly. Examples include your stomach, small intestine, and airways in the lungs. Cells lining these body cavities secrete galactosidase, which helps the **production of smooth mucus** which helps protect your stomach lining and supports organs like the stomach, small intestine, and airways in the lungs.

## HOW OUR TOTAL DIGESTIVE HEALTH PROGRAM HELPED OTHERS

*"I was sick of being the only one who couldn't have this or that. It ruined dating and girl's night for me. Not sure what to expect from Primal Digestive Enzymes, I couldn't stop smiling when I actually showed up at happy hour after months of making excuses."*

- AMBER

*"It started as a dull pain and gradually became worse. My doctor wasn't sure what was causing it... I was told the only option was surgery, but I wasn't ready for that. My husband introduced me to Primal Digestive Enzymes and, even though I didn't believe a supplement could help, I now can't imagine my life without it."*

- LYNNETTE

*"Tired of planning my life around the nearest toilet, I was desperate for a solution when I came across Primal Digestive Enzymes. Now I feel like myself again, and I don't spend more time in the bathroom than at the table anymore!"*

- SANDY

# HERBAL REMEDY BACKED BY SCIENCE

The powerful formulation of our Ancestral Liver and Gallbladder Detox is endorsed by medical professionals. Discover what biomedical scientist and supplement expert, Dr. Karen Vieira, says about the effectiveness of this supplement:

*"Our society is currently faced with pathogens that are unlike anything we have seen in the past, and with all of the dietary supplements that are currently being pushed by different companies, it gets hard to determine which ones will benefit you the most. Primal Digestive Enzymes with Probiotics help maintain healthy levels of digestive enzymes, is safe to take on a daily basis, and also contains probiotics that enhance digestive function."*

*Together, the digestive enzymes and probiotics in this supplement help your body break down hard to digest foods, reduce the bloating, gas, and discomfort that is associated with certain foods, and helps your digestive tract convert food into energy without leaving behind undigested food that may cause or worsen digestive issues. THIS WINTER, ENHANCE NATURAL WEIGHT LOSS, AND SUPPORT YOUR IMMUNE SYSTEM. BOOST YOUR METABOLISM AFTER FALL WITH OUR POWERFUL BERBERINE HCL FORTE SUPPLEMENT!

Promote healthy weight loss and support your immune system with Berberine HCL Forte.

With a long history of medicinal use in Ayurvedic and Chinese medicine, berberine is a plant compound that activates an enzyme in our cells called adenosine monophosphate-activated protein kinase (AMPK - sometimes referred to as a metabolic master switch). This regulates how energy is produced and used in the body, which **helps sugar metabolism, reduces high blood pressure, supports the immune system, and speeds up the metabolism** to promote weight loss.

Berberine is an adaptable herb that benefits your body at a molecular level. A study conducted on obese individuals who were given 500mg of berberine three times a day for 12 weeks found an average of 5 pounds weight loss along with a 3.6% reduction in body fat. There was also a decrease in Body Mass Index (BMI) from 31.5 to 27.4.

## THE BENEFITS OF BERBERINE HCL FORTE

Containing Berberis aristata (also known as barberry or tree turmeric), our Berberine supplement is **based on timeless secrets to health** that have been passed down by herbalists through generations. These **ancient remedies** give you a metabolic boost that has bountiful health benefits on your immune system, sugar levels, and cardiovascular health.

THESE ARE SOME OF THE POSITIVE EFFECTS YOU CAN EXPERIENCE WITH BERBERINE:

\*Based on clinical studies

### REMARKABLE EFFECTS ON METABOLISM

Once absorbed in your bloodstream, Berberine activates an enzyme called AMP-activated protein kinase. This enzyme stimulates the breakdown of fatty acids inside the liver, helps break down fat to be used for energy, and inhibits the creation of fat.

### SURPRISING EFFECTS ON BLOOD SUGAR

Berberine has been scientifically proven to help reduce elevated blood sugar in type 2 diabetics and can also reduce cholesterol and triglyceride levels.

### IMPROVEMENT OF TYPE 2 DIABETES

Expect better blood sugar control and lower blood insulin levels due to the increased insulin sensitivity caused by Berberine. This reduces the load off your pancreas.

### POWERFUL IMPACT ON CHOLESTEROL AND TRIGLYCERIDES

You can dramatically reduce cholesterol and triglyceride levels with no side effects.

### COMBATING ABILITIES FOR AGE-RELATED COGNITIVE DECLINE AND MOOD ISSUES

Studies have shown that Berberine positively affects brain activity involved with long-term cognitive health and also protects brain cells. This helps to improve memory function, focus, and concentration.

### HEALING PROPERTIES FOR DIGESTIVE ISSUES

Frustrating digestive issues will fade away with Berberine. It balances activity in the intestines and provides effective digestive relief, without damaging good intestinal bacteria.

### TURBOCHARGING EFFECTS ON THE IMMUNE SYSTEM

Because Berberine restores your digestive balance, you can experience a cascade of healthful benefits. This includes a boost in resistance, prevention of urinary tract issues, as well as antiviral effects on common problems like a cold.

### SAFEGUARDING ABILITIES FOR LIVER, PANCREAS, AND KIDNEYS

With powerful antioxidant and anti-inflammatory properties, Berberine eases oxidative stress and inflammation of the liver, pancreas, and kidneys. It helps to detoxify these organs and give them a much-needed boost.

## HERBAL REMEDY BACKED BY SCIENCE

We are proud to use powerful natural ingredients and effective formulations that are endorsed by medical professionals. Here's what Dr. Karen Vieira, a biomedical scientist and supplement expert, has to say about our Berberine supplement:

*"Berberine is a powerful herb that is great for people who need a metabolic boost every once in a while. This potent plant supports healthy blood sugar levels, which is particularly beneficial for people with type 2 diabetes. It even promotes lower levels of blood sugar after eating or while fasting by influencing insulin production."*

## VITALITY BUNDLE AMPLIFY HEALING DONE BY MIDDLE WORLD HERBS SUPPLEMENTS WITH TARGETED MOVEMENTS THAT STIMULATE DIGESTIVE ENERGY CENTERS.

Developed by functional fitness and yoga instructor Tess Collins, our Vitality Bundle has been specifically designed to leverage ancient healing modalities that target metabolism, liver, and gallbladder health.

Increase the power of Middle World Herbs' natural remedies by combining them with ancient health practices that help you achieve long-term health. The Vitality Bundle includes:

### ✿ YOGA FLOWS TARGETED AT METABOLIC HEALTH

Practice tailored yoga flows that strategically use metabolism-focused poses to improve digestive health. With one flow developed for beginners and another for a more advanced level, both have the same focus and design.

### ✿ HEALING QIGONG ROUTINES

Learn a centuries-old body posture and movement system that includes secret, healing moves that specifically address liver and gallbladder health. These routines use focus and awareness to pass energy through these organs to remove blockages and rejuvenate your life.

### ✿ SELF-MASSAGE

Discover the hidden trigger points and techniques for self-massage. These trigger points use acupressure for metabolic meridians and support your metabolism.

### BENEFITS OF THE VITALITY BUNDLE

When practiced consistently, these healing modalities will supercharge your metabolism:

- ✿ Increases blood flow to the liver and gallbladder while nourishing the surrounding organs and tissues within the abdominal cavity to promote healing.
- ✿ Improves overall energy levels, at the same time calming the mind.
- ✿ Enhances the cardiovascular system by getting blood and oxygen flowing freely.
- ✿ Stimulates the process of eliminating toxins from the body.
- ✿ Relieves emotional stress and mental anxiety.

GUIDED VISUALIZATIONS

# OPEN UP TO THE DEEPEST RESOURCE OF SELF-HEALING - YOUR SUBCONSCIOUSNESS.

Work from the subconscious level of awareness where 80% of our thoughts, actions, and feelings are rooted. Developed by licensed psychologist Dr. Margarida Rafael, these guided visualizations cover three main sections: awareness, reprogramming, and healing.

## What's included in the Guided Visualization Series?

This series mimics personal therapy sessions and includes three session recordings. Each section builds on the previous, contributing toward a process of body awareness, removal of subconscious blocks, and behavior modification at a deeper level. You can repeat a section as many times as you like before moving onto the next.

## #1 - AWARENESS

- Notice where in your body you hold tension and how to release it.
- Get to know your body, how it reacts, and what your triggers are.
- Address subconscious blocks related to withholding toxins and anger in a body.
- Eliminate energy blocking of free transformations (from food to energy).
- Reinstate trust in the body's metabolic processes and create space for self-healing.
- Get comfortable with the sessions before moving forward.

## #2 - REPROGRAMMING

- Focus on changing behaviors like compulsory snacking, eating in a rush, and stress.
- Instill responsible food choices.
- Unearth the subconscious blocks that are causing certain behaviors to be able to move onto session three.

## #3 - HEALING

- Undergo a more powerful process of healing with deep guided visualizations that can lead to passing gallstones, reducing weight, and easing digestive issues.
- Decrease inflammation in the body.
- Repair internal damage to the liver and digestive system.
- Eliminate digestive discomforts

## THANK YOU FOR SUBSCRIBING TO MIDDLE WORLD HERBS

Many e-mail and internet companies are now using programs to block unwanted e-mail, often called spam. Sometimes, however, these programs block e-mail you want to get.

### TO ENSURE YOU ARE RECEIVING YOUR MIDDLE WORLD HERBS EMAILS DO THE FOLLOWING:

Be sure to add the corresponding Middle World Herbs email addresses to your email white list to ensure the best chance of receiving our content and updates.

A whitelist is a list of accepted e-mail addresses or domain names from which an e-mail blocking program will allow messages to be received properly.

### WHY IS THIS IMPORTANT?

Unsolicited, unwanted advertising e-mail, commonly known as "spam", has become a big problem. It's reached such proportions that most e-mail services and Internet Service Providers (ISPs) have put some sort of blocking or filtering system in place or begun relying on self-proclaimed blacklists to tell the good guys from the bad.

Middle World Herbs applauds their intention to protect you from spam, but everyone agrees that the current systems for stopping spam are far from a perfect solution. They often block e-mail that you've requested, but that fits somebody's idea of what spam looks like. The more responsible anti-spam activists are working hard to cut down on these "false positives", but in the mean time, you might unexpectedly find you're not getting your subscription's content...

As it happens, there's something you can do to keep your subscription's content from falling into the false positive trap. You can fight the blacklists with a "white-list".

### WHITE-LIST US NOW, BEFORE YOUR DELIVERY IS INTERRUPTED.

Of course, every e-mail system is different. Below are instructions for some of the more popular ones.

#### EMAIL:

1. In your inbox, locate an email from support@middleworldherbs.com (e.g. your order confirmation mail for the product you just signed up for).
2. Drag this email to the "primary" tab of your inbox.
3. You'll see that our emails will go to your primary folder in the future!

#### HOTMAIL:

1. Go to Contacts, then click on "Safe List"
2. Add "support@middleworldherbs.com" to your email safelist.

#### YAHOO! MAIL

When opening an email message, a "+" symbol should display next to From: and the sender's name. Select this and an "Add to contacts" pop-up should appear. Select "Save":
